...

**Date** - November 19th, 2025 - December 1st, 2025

**Sprint goal** - Integrate the backend with the app and deliver a functional map view so users can view and manage their trips on an interactive map.

Compared to the previous sprint, our velocity improved significantly, and we completed a greater number of tasks. We are now more accurate in our estimations and more disciplined in selecting a realistic amount of work. This resulted in a more predictable sprint and fewer unfinished items.
